

DANYLO HRYTSENKO

FRONT-END DEVELOPER

Ukraine, Dnipro | hrytsenko.danylo@gmail.com | [Linkedin](#) | [Telegram](#) | [Portfolio](#) | [+38 \(068\) - 787 - 18 - 38](tel:+380687871838)

Summary

Front-end Developer with 3 years of experience creating fast, scalable, and visually engaging web apps using React, Next.js, and TypeScript. Focused on high performance, clean architecture, and delightful user experiences.

Skills

Frontend: React, Next.js, TypeScript, Redux, MobX, Framer Motion, GSAP, Chrome Extension (Manifest V3), Swiper.js, React-bits, Lucide, Lenis, Storybook

Build & Tools: Webpack, Vite, Storybook, ESLint, Prettier, GitHub, GitLab, Husky, Netlify, Render

Architecture: Feature-Sliced Design (FSD), API integration, Firebase, MongoDB

Other: AI-assisted code generation

Experience

Front-end developer - NDA: iGaming

02/2024 - 08/2025

- Developed and maintained a large multi-module platform, including Admin panel, Partner dashboard, Casino client, Storybook modules, and Betting system.
- Actively contributed to all parts of the system — implementing adaptive UI, integrating APIs, and ensuring smooth data flow between modules.
- Collaborated closely with backend developers, QA engineers, designers, and PMs to deliver high-quality and well-tested features.
- Implemented Redux and TypeScript, set up Storybook for shared UI components and cross-module consistency.
- Built and refactored complex components (e.g. payment systems, forms, and reusable widgets).
- Conducted code reviews, improved architecture, and optimized performance and responsiveness.
- Delivered consistent adaptive layouts and improved UX across desktop and mobile devices.

Additional contribution:

Also participated in a secondary iGaming streaming platform (Gambling Live/Streams) for urgent feature development. Handled API integration, component development, and collaboration with backend and QA teams.

Contributed part-time for ~6 months alongside the main project.

Front-end Developer (Volunteer) — Hillel IT School — Kids Exchange Platform

06/2022 – 09/2023

- Contributed to the development of a web platform for exchanging children's items, focused on accessibility and smooth user interaction.
- Worked in a cross-functional team following Agile/Scrum practices — weekly stand-ups, sprint planning, and Jira-based task tracking.
- Implemented responsive layouts, reusable UI components, and API integrations using modern front-end tooling.
- Participated in code reviews, ensuring code quality and consistent architecture across modules.
- Acted as a mentor for newcomers, explaining project structure, component logic, development workflow and assisted in task delegation

Education

Dnipro National University of Science and Technology 2019 - 2024

- Master of Management of energy and economic processes.

Additional information

- Languages: English B1 (B2 - in progress), Ukrainian.
- Certifications: Front-end Basic and Front-end Pro at Hillel IT School.

Hobbies & Interests

Electric guitar, music, cats, computer games, anime.
